

Seminars at Wilhelminenberg Summer 2024

Guests are welcome!

Students participating (online and/or in presence) to the seminar series can receive credits by enrolling in the course KV 128 804 "Ausgewählte Themen der Wildtierökologie".

Please note below if a talk will be held in person/hybrid or online only.
To participate please apply for a link to the video conference by sending a request to klivv@vetmeduni.ac.at

Seminars start at 14:00 (2 p.m.) CEST sharp (unless otherwise indicated)

March		06.03.	!!ONLINE ONLY!! KRYSZYNA CWIKLINSKI	Institute of Infection, Veterinary and Ecological Sciences, University of Liverpool, UK	Investigating the pathogenicity of <i>Fasciola</i> spp. liver flukes across a broad range of mammalian hosts
		13.03.	!!ONLINE ONLY!! MICHAEL TOBLER	University of Missouri, St. Louis, Senior Scientist at the Saint Louis Zoo, USA	Extreme environments, complexity, and the predictability of evolution
		20.03.	DANIEL MACNULTY	Wildland Resources Faculty, Utah State University, USA	Demystifying the ecological consequences of Yellowstone wolf reintroduction
		27.03.	BARBARA KLUMP	Dep. Behavioral & Cognitive Biology University of Vienna, AUT	The ecology and cognition of extractive foraging
April		03.04.	!!ONLINE ONLY!! DANIELA RÖBLER	Max Planck Institute of Animal Behavior, Dep. of Collective Behavior, GER	The spider sleeps tonight: an exceptional framework for comparative sleep research
		10.04.	PABLO BURRACO	CSIC - Doñana Biological Station, ES	Eco-evolutionary insights into molecular ageing mechanisms: connecting the dots across scales
		17.04	!!ONLINE ONLY!! ANDREA DÖSCHEL-WILSON	Quantitative Biology The Roslin Institute, University of Edinburgh, UK	Healthy animals for Sustainable Agriculture and One Health
May		22.05.	MAR CABEZA	University of Helsinki, FIN	<i>To be announced</i>
		29.05.	RAFAEL MÁRQUEZ	Fonoteca Zoológica, Dept de Biodiversidad y Biología Evolutiva, Museo Nacional de Ciencias Naturales (CSIC), ES	Sound and vibrations in the biology of anurans
June		05.06.	ELENA BUZAN	Faculty of Mathematics, Natural Sciences and Information Technologies, University of Primorska, SI	Genomics tools enhancing biodiversity conservation management: Case studies from SE Europe
		12.06.	ROMAN WITTIG	Max Planck Institute for Evolutionary Anthropology, GER University of Lyon, Institute for Cognitive Sciences Marc Jeannerod, FR	Out-group conflict and in-group cooperation in wild chimpanzees
		19.06.	GÜNTHER WUCHTERL	Kuffner Sternwarte, AUT	Natural Light - quantification and long-term monitoring in the Dürrenstein Wildernis
		26.06.	MARTINA MOSING	Anaesthesiology and Perioperative Care, Department of Companion Animals and Horses, Vetmeduni Vienna, AT	Electrical Impedance Tomography as a new monitoring technique in the field?

Forschungsinstitut für Wildtierkunde und Ökologie, 1160 Vienna, Savoyenstraße 1

Konrad Lorenz-Institut für Vergleichende Verhaltensforschung, 1160 Vienna, Savoyenstraße 1

When: Wednesdays at 14:00 sharp / Coffee and tea will be served from 13:45.

Where: The institutes are located opposite of Schloss Wilhelminenberg in the 16th district of Vienna.

The seminars will take place at the "Hörsaal" at the Forschungsinstitut für Wildtierkunde und Ökologie (Research Institute of Wildlife Ecology).

How to get here:

Streetcar (2, 10, 44, 46) or train S45 or underground (U3) to station Ottakring, then bus 46A or 46B to "Wilhelminenberg".
