

Postdoctoral Fellowships

Vetmeduni Vienna invites applications for up to 5 post doctoral fellowships as early career opportunities for developing outstanding research programs.

Starting 2011 the university will award each fellowship a 4 year funding.

Salary is €45.500,- (before tax) and research expense is €10.000,- per year.

No teaching or administrative duties are associated with these appointments, however candidates are expected to apply for additional research funding.

Applications in the following areas are invited.

(For details please use link: <http://www.vetmeduni.ac.at/postdoc/>)

Code:	Research Area	Principal Investigators
PD0210	Development of ventilation strategies for improvement of lung function and gas exchange during equine anaesthesia.	Yves Moens
PD0410	Characterisation of enzymes of the glycosylation metabolism of <i>Oesophagostomum dentatum</i>	Anja Joachim
PD0510	Corticosteroid binding globulin concentration: a parameter for long term stress in birds?	Erich Möstl
PD1110	RNA interference (RNAi) as a possible control of whirling disease in rainbow trout (<i>Oncorhynchus mykiss</i>)	Mansour El-Matbouli
PD1310	Pathophysiology of reproduction and embryo-maternal crosstalk	Urban Besenfelder
PD0909	Animal welfare and product quality	Susanne Waiblinger
PD2209	Dynamics of mosquito born viral zoonoses	Franz Rubel

Closing date for applications: Jan 3rd 2011

A PhD degree in Life Sciences or Dr.med.vet. or Dr.med.degree is required.

Application should contain: full CV, publication list, application letter, 2 letters of recommendation and should be submitted electronically to: rektorat@vetmeduni.ac.at (Also for informal enquiries.)

Vetmeduni Vienna is committed to the recruitment and advancement of female scientists.

Appointments will be subjected to a pre employment screening.
